# Subject Index to Volumes 32 and 33

Acid rain
  effects on insects and protozoans, 33(2):182
Air pollution
  ambient air particle analysis, 32(3):229
  influence on stress response in lichen, 32(3):285
Amphibians
  effects of nitrogen fertilizer on tadpoles, 32(3):298
  effects of motor oil on, 32(4): 383
Arsenic
  toxicity in cultured mammalian cells, 32(2):141
  residues in chicken eggs, 32(4):407
  metabolism of dimethylarsinic acid in rats, 32(4):416
  in rock shells, 32(4):456

Bioaccumulation
  of Cd in pond lily, 32(2):161
  of fluoride in deer antlers, 32(2):222
  of heavy metals in liverworts, 33(2):162
  of organochlorine pesticides, 33(4):357
  of PCBs in invertebrates, 33(4):388
  of Hg in fish, 33(4):423
  of metals and organochlorine pesticides in murres, 33(4):430
Birds
  chlorinated hydrocarbon accumulation in, 32(2):126
  Hg in egrets, 32(2):211
  metals and Se in egrets, 32(2):217
  effects of organochlorines on chicken embryo, 32(3):316
  effects of PCBs on chicken brain, 32(4):399
  As residues in chicken eggs, 32(4):407
  behavioral effects of Dicofol in kestrels, 32(4):411
  metals and Se in gull eggs, 33(1):63
  metals and Se in gull eggs, 33(1):71
  Pb in raptors, 33(1):76
  metals and organochlorine pesticides in murres, 33(4):430
  metals in gull blood, 33(4):436
  Hg in osprey feathers and eggs, 33(4):441

Carbamate pesticides
  effects of carbofuran in catfish oocytes, 32(4):426
  effects on polychaetes, 33(2):203
Chlorination
  toxicity of bleached kraft pulp mill effluent to macroinvertebrates, 32(3):274
  bleached kraft mill water, 32(4):367
  bleached kraft mill effluent effects on minnows, 32(4):394
Crustaceans
  photo-induced toxicity of PAH in, 32(4):389
Cytochrome P450
  induction in birds by chlorinated hydrocarbons, 32(2):126
  in brushtail possum, 33(1):83
  induction by PCBs in marine mammals, 33(3):298

Desert ecosystem
  risk assessment in, 32(1):1
  insecticide risk assessment in, 32(1):11
  tolerances of riverine invertebrates, 32(1):22
  salinity tolerances of invertebrates, 32(1):32
  assessment of pesticide use in, 32(1):42
  organisms in freshwater ponds, 32(1):50
  nontarget impacts of locust insecticide, 32(1):58
  nontarget impact of cotton insecticides, 32(1):63
  effects on nontarget arthropods from fungal and permethrin insecticides, 32(1):69
  effects of pesticides on reptiles and amphibians in, 32(1):80

Environmental monitoring
  of polychlorinated naphthalenes, 32(3):232
  metals in sediment and fish, 32(3):246
  PCBs in sewer overflows, 33(2):130
  PCDFs in soil around an incinerator, 33(3):239
Endocrine toxicity
  receptor binding in bass exposed to PCBs, 32(3):309
Explosives
  microbial degradation in soil, 32(1):94

Fish
  sea surface microlayer toxicity bioassay 32(2):135
  organotin compounds in, 32(2):198
  toxicity testing of pesticide residues in flow-through system, 32(2):204
  Hg in and uptake by egrets, 32(2):211
  metals in, 32(3):246
  heavy metals in otoliths, 32(3):304
  estrogen receptor binding in bass exposed to PCBs, 32(3):309
  effects of tetrachloroguaiacol, 32(4):394
  effects of carbofuran in catfish oocytes, 32(4):426
  toxicity of azinphos methyl, 32(4):436
  PCB accumulation in, 32(4):449
  metallothionein as a biomarker of metals in, 33(1):53
  Hg from coal-fired power plant in, 33(2):222
  60Co transfer to rainbow trout, 33(2):230
  recovery of following water pollution abatement, 33(3):277
  organochlorine pesticides and PCBs in, 33(4):378
  effects of Cu in carp, 33(4):415
  Hg bioaccumulation in, 33(4):423
  metals in herring blood, 33(4):436
Fungicides
  biological monitoring in pesticide applicators, 33(3):329

Herbicides
  run off in alluvial soil, 32(1):106
  fungal metabolism of metolachlor, 32(2):117
  degradation in citrus orchard soil, 32(4):346
  sensitivity of algae to, 32(4):353
  aquatic toxicity of propanil, 33(2):199
  soil degradation in orchard, 33(3):247
  toxicity to sago pondweed, 33(3):261
  effects of glyphosate in snails, 33(3):286
Human exposure
  PCBs in plasma from fishermen's wives, 32(3):329
  PCBs and PCDFs in serum from toxic rice oil, 33(1):104
  personal ambient monitoring of 2-bromopropane, 33(1):23
  PCB congeners during lactation, 33(1):97
  from fungicide application, 33(3):329
  blood DDT and lack of breast cancer risk, 33(4):453

Immunotoxicology
  effects of pesticides in earthworm, 32(3):291
  of nitrite in mice infected with nematodes, 32(4):462
In vitro toxicity testing
  nematode tolerance in water, 32(1):110
  As toxicity in cultured mammalian cells, 32(2):141
  stress response from metals in nematodes, 32(2):146
  sediment toxicity testing using trophic organisms, 32(3):260
  photo-induced toxicity of PAH to Daphnia, 32(3):268
  of bleached kraft mill process water, 32(4):367
  toxicity of azinphos methyl in marine fish and invertebrates, 32(4):436
  hepatoma cell bioassay of PAHs, 32(4):442
  lymphocyte and cytokine analysis in mouse lymph nodes, 32(4):462
  toxicity of organophosphate and carbamate insecticides in midge, 33(1):29
  membrane toxicity of DDT, 33(2):109
  of acid rain on insects and protozoans, 33(2):182
  Cd toxicity to freshwater organisms, 33(2):188
  salinity tolerance of Daphnia, 33(2):194
  aquatic toxicity of propanil, 33(2):199
  of water using nematodes, 33(3):252
  of nonpolar narcotics in Tetrahymena, 33(4):401
  using midge larval instars, 33(4):407
Insect toxicity
  accumulation of metals in ants, 32(2):172
  from metal-contaminated psyllids, 32(4):376
  toxicity of organophosphate and carbamate insecticides in midge, 33(1):29
  from acid rain, 33(2):182
  evaluation using midge larval instars, 33(4):407
Invertebrates
  earthworm bioassay for Pb toxicity, 32(2):166

effects of Cd on leech, 32(2):178
toxicity of bleached kraft pulp mill effluent in, 32(3):274
effects of pesticides in earthworm, 32(3):291
soil effects on pesticide toxicity in earthworms, 33(1):34
Cd toxicity in, 33(2):188
salinity tolerance of Daphnia, 33(2):194
toxicity of solvents to shrimp, 33(2):217
effects of crude oil on, 33(3):268
recovery of following water pollution abatement, 33(3):277
bioaccumulation of PCBs in, 33(4):388

Mammalian toxicity
effects of parathion in rat, 32(4):422
of tributyltin chloride, 33(1):90
rat metabolism of deltamethrin, 33(3):323
Marine invertebrates
sea surface microlayer toxicity bioassay, 32(2):135
toxicity of azinphos methyl in marine fish and invertebrates, 32(4):436
organophosphate and carbamate toxicity in polychaetes, 33(2):203
effects of nitrite in prawns, 33(3):290
Marine mammals
PCBs in and induction of Cyt P450, 33(3):298
Mercury
in fish and uptake by birds, 32(2):211
in alligators, 32(3):323
from geothermal power plants, 33(2):172
in fish from coal-fired power plant, 33(2):222
in mink from fish feeding, 33(3):312
bioaccumulation in fish, 33(4):423
in osprey feathers and eggs, 33(4):441
Metals
stress response in nematodes from, 32(2):146
effects of Cd on wheat, 32(2):154
Cd accumulation in pond lily, 32(2):161
bioassays for remediation of Pb from soils, 32(2):166
accumulation in ants, 32(2):172
effects of Cd on leech, 32(2):178
in mussel, 32(2):184
uptake by zebra mussel, 32(2):191
in egrets, 32(2):217
in sediment and fish, 32(3):246
toxicity to trophic organisms from, 32(3):260
accumulation in lichen, 32(3):285
in fish otoliths, 32(3):304
detection in wastewaters using algae, 32(4):358
in psyllids, 32(4):376
in rock shells, 32(4):456
metallothionein as a biomarker of, 33(1):53 fish
in gull eggs, 33(1):63
in gull eggs, 33(1):71
Pb in raptors, 33(1):76
Cd and Cu in diatoms, 33(2):147
Cd in microalga, 33(2):156
in liverworts, 33(2):162
from geotherman power plants, 33(2):172
Cd toxicity to freshwater organisms, 33(2):188
effects of Cd on snails, 33(2):209
effects of Cu in carp, 33(4):415
bioaccumulation in murres, 33(4):430
in herring and gull blood, 33(4):436

Microbial degradation
of explosives in soil, 32(1):94
of PAHs in sediments, 32(1):99
of metolachlor, 32(2):117
of DDE, 33(2):141
of herbicide in orchard soil, 33(3):247
of organochlorine pesticides, 33(4):350
Molluscs
sea surface microlayer toxicity bioassay, 32(2):135
trace metals in mussel, 32(2):184
uptake of Ni and Zn by zebra mussel, 32(2):191
organotin compounds in, 32(2):198
PAHs in oysters, 32(4):442
As and metals in, 32(4):456
organophosphate pesticides in zebra mussel, 33(1):42
chlorpyrifos in marine molluscs, 33(1):47
effects of Cd on snails, 33(2):209
effects of glyphosate in snails, 33(3):286
Mycotoxins
molecular models for fumonisins, 33(1):1

Organochlorine pesticides
toxicity testing of in flow-through system, 32(2):204
behavioral effects of dicofol in kestrels, 32(4):411
model evaluation of DDT membrane toxicity, 33(2):109
microbial degradation of DDE, 33(2):141
effects of DDT on bacterial membranes, 33(4):341
bacterial degradation of, 33(4):350
in sediments and bioaccumulation of, 33(4):357
in sediments, 33(4):369
in arctic fish and sediments, 33(4):378
bioaccumulation in murres, 33(4):430
blood DDT and lack of breast cancer risk, 33(4):453
Organophosphate pesticides
effects of parathion in rat, 32(4):422
in zebra mussel, 33(1):42
in marine molluscs, 33(1):47
effects on polychaetes, 33(2):203
Organotin compounds
in molluscs and fish, 32(2):198
developmental toxicity in rats, 33(1):90

PCBs furans + dioxins
accumulation and Cyt P450 induction in birds, 32(2):126
polychlorinated naphthalenes in environmental samples, 32(3):232
effect on estrogen receptor binding in bass, 32(3):309
from cormorant eggs and effects on chicken embryo, 32(3):316
in plasma from fishermens wives, 32(3):329
effects on chicken brain from, 32(4):399
accumulation in fish, 32(4):449
in human serum after exposure to toxic rice oil, 33(1):104
variations during lactation, 33(1):97
in interstitial water, 33(2):125
in sewer overflows, 33(2):130
in soil around an incinerator, 33(3):239
in marine mammals and Cyt P450 induction by, 33(3):298
in arctic fish and sediments, 33(4):378
bioaccumulation in invertebrates, 33(4):388

Pesticide residue analysis
in canal water, 32(4):337
Petroleum hydrocarbons
effects of motor oil on salamanders, 32(4):383
toxicity to shrimp, 33(2):217
effects on benthic invertebrates, 33(3):268
Physico-chemical methods
TEM analysis of air particle size, 32(3):229
ion chromatography ICP/MS determination of As metabolites in urine, 32(4):416
GFAA analysis of Sb, 32(4):431
calculation of electrostatic potential surfaces for fumonisins, 33(1):1
personal ambient monitoring of 2-bromopropane, 33(1):23
fluorescent probes for DDT effects in membranes, 33(2):109
pesticide sorption to soil, 33(2):117
spectroscopy of metals in diatoms, 33(2):147
spectroscopy of microalgal Cd, 33(2):156
for determination of fungicide metabolism in humans, 33(3):329
Phytotoxicity
effects of Cd on wheat, 32(2):154
plant genotoxicity bioassay for Pb, 32(2):166
stress response in lichen, 32(3):285
of organometallic complexes in wastewaters, 32(4):358
accumulation of metals in plants, 33(2):172
Polycyclic aromatic hydrocarbons
microbial degradation in sediments, 32(1):99
photo-induced toxicity in Daphnia, 32(3):268
photo-induced toxicity in crustaceans, 32(4):389
Cyt P450 induction in hepatoma cell bioassay from, 32(4):442
from motorway runoff, 33(1):9
determination in rat blood and excreta, 33(3):317

Radionuclides
60Co transfer to rainbow trout, 33(2):230
Reproductive toxicity
from Hg in mink, 33(3):312

Selenium
in egrets, 32(2):217
in gull eggs, 33(1):63
in gull eggs, 33(1):71
Soil + sediments
microbial degradation of explosives in, 32(1):94
plant and earthworm bioassays to evaluate remediation of, 32(2):166
metals in, 32(3):246
sediment toxicity testing using trophic organisms, 32(3):260
toxicity of bleached pulp mill effluent in, 32(3):274
degradation of herbicides in citrus orchard, 32(4):346
effects on pesticide toxicity in earthworms, 33(1):34
PAHs in from motorway runoff, 33(1):9
pesticide sorption to, 33(2):117
PCBs from interstitial water, 33(2):125
heavy metals in liverworts from, 33(2):162
PCDFs in soil around an incinerator, 33(3):239

bioavailability of PAHs from, 33(3):317
measurement of organochlorine pesticides in, 33(4):357
measurement of organochlorine pesticides in, 33(4):369
organochlorine pesticides and PCBs in, 33(4):378
bioaccumulation in invertebrates of PCBs from, 33(4):388
Hg in, 33(4):423
Water quality
and nematode tolerance, 32(1):110
biomarkers of heavy metals in, 32(2):146
from bleached pulp mill effluent, 32(3):274
pesticides in canals, 32(4):337
determination using algal assays, 32(4):358
testing of bleached kraft mill process water, 32(4):367
bleached kraft mill effluent effects on minnows, 32(4):394
GFAA analysis of Sb in drinking water, 32(4):431
environmental sanitation and, 33(1):17
PAHs from motor runoff, 33(1):9
toxicity testing using nematodes, 33(3):252
recovery of following water pollution abatement, 33(3):277
and gastric cancer epidemiology, 33(3):336
